

# Nedbank now offers you and your customers the safety and convenience of filling up with any debit card.

## Benefits to fuel merchants:

- Less cash on premises
- Reduced cash-handling fees
- Offering your customers the convenience of paying without leaving the vehicle
- No need for your customers to draw cash from ATMs
- Faster transaction time and less forecourt congestion
- More debit card holders than credit card holders
- Easy payment method for tourists – especially important for 2010
- Reduced fraud due to PIN-based transactions

## The way it works:

- 1 Attendant swipes card
- 2 Cardholder enters PIN
- 3 Transaction is transmitted to the issuing bank for authorisation
- 4 If approved, the bank sends authorisation to the device
- 5 The device then prints out a slip indicating sale amount and the words 'fuel' and 'debit'
- 6 Merchant service commission fees applicable

**Make things safe and convenient in your forecourt with debit card acceptance.**
